

**IN THE SPECIFICATION:**

Please amend the specification as indicated:

[23] Resilient seals 38a, 38b, 38c are located within the arms 42, 44. Seal 38a extends from arm 44 and includes a multiple of wipers 50 which extend toward arcuate frame portion 43. The wipers 50 assist in receiving the inner band ~~portion 40~~ section 20 and providing a seal therewith when the surround 10 is assembled (Figure 4). Although it is not thought necessary in most instances, a gasket or sealing compound rubber may be provided for each joint J.
